4. SUCCESSION

a. Succession establishes the formal, sequential assumption of a position’s authorities and responsibilities, to the extent not otherwise limited by the law, by the holder of another specified position identified in Executive Order, or Presidential Directive, in statute, or by relevant Department or Agency policy or regulation. If there is no applicable Executive Order, Presidential Directive or statute, in the event of a vacancy in office or a position holder dies, resigns, or is otherwise unable to perform the functions and duties of the pertinent position a delegation of authority may direct specific functions or roles associated with the vacant position roles and responsibilities.

b. Applicability

(1) Succession will only take place in the following situations: an emergency, when the incumbent is incapacitated or unable to perform the duties of their office, or succession is directed by a higher authority (e.g., Secretary of Veterans Affairs). In order to avoid a conflict of authority, communication within the line of succession is required prior to and during any of the three succession situations mentioned. The process of succession will continue until the successor is relieved by the principal official (current highest-ranking individual in NCA according to established lines of succession), someone higher than the successor in the order of succession, or by direction from a higher authority.

(2) The individual who succeeds to the office of a principal official will promptly report that fact to the next higher management level by the most expeditious means of communication available; e.g., an individual succeeding the Under Secretary for Memorial Affairs will report that fact immediately to the Secretary of Veterans Affairs.

(3) Each successor designee (see paragraph 4.c.(2) below) should be familiar with the duties that would be performed in an emergency.

c. Lists of Successors

(1) Lists of successors to the Under Secretary, Principal Deputy Under Secretary, Deputy Under Secretaries, Senior Executives, District Executive Directors, and Service Directors will be determined by the individuals holding that specific position. These principal officials will then provide the lists of successors to the NCA EPC for inclusion in VA’s Essential Records Listing (see paragraph 4.b.(1)). Lists of successors will be reviewed and updated annually by the EPC. Successors must be appointed and not in an acting capacity.
(2) In the absence or incapacity of the Under Secretary during an emergency, command will pass to the incumbents who have been appointed by the Under Secretary to the positions listed, in the order indicated in the NCA Continuity Plan, if the incumbent is at a location with command capability:

(i) Principal Deputy Under Secretary for Memorial Affairs;

(ii) Deputy Under Secretary for Field Programs and Cemetery Operations;

(iii) Deputy Under Secretary for Management; and

(iv) Executive Director, Southeast District, Atlanta, GA.

(3) Each Key Program Official in NCA will designate appropriate position(s) in order of priority to serve as the Key Program Official's successor in the event of the Key Program Official's absence or incapacity during an emergency.

(4) Each National Cemetery Director will designate appropriate position(s) in order of priority to serve as the Cemetery Director's successor in the event of the Cemetery Director's absence or incapacity during an emergency. This will be annotated in the Cemetery Director’s Cemetery Emergency Action Plan.
