**FLORAL POLICY IN VA NATIONAL CEMETERIES****1. PURPOSE/AUTHORITY:**

a. The purpose of this National Cemetery Administration (NCA) Directive is to revise existing and establish new NCA policy and procedures for the placement of floral arrangements, and the removal, storage, and disposition of floral and personal items placed at gravesites in Department of Veterans Affairs (VA) national cemeteries. The policy will assist NCA national cemetery staff in fulfilling the mission to maintain its cemeteries as national shrines dedicated to honoring the memory of those who served in the Armed Forces.

b. Among the provisions in this directive is the requirement that cemetery directors dispose of personal property left at gravesites. Authority for this provision is found in the Federal Management Regulation (FMR) regarding the disposition of seized, forfeited, voluntarily abandoned, and unclaimed personal property in title 41 Code of Federal Regulations Chapter 102-41. Specifically, section 102-41.85(b) provides that an agency may retain or dispose of voluntarily abandoned personal property, including destroying the property without public notice when the estimated resale value of the property is less than \$500. Floral and personal items left at gravesites generally cost less than \$500.

**2. POLICY:** It is NCA policy that each national cemetery will allow visitors to place floral arrangements and other seasonal items on gravesites to commemorate and honor those interred while balancing NCA requirements to operate and maintain cemeteries as national shrines and to provide a safe environment for visitors and employees.

*Note: This policy does not apply to flags left at gravesites. The authorized placement of gravesite flags is addressed separately in NCA Directive 3220 — Flag Displays in National Cemeteries.*
